# Vincent VOUGA

Senior Independent IT Consultant | Java & DevOps Specialist

📍 Brussels, Belgium 📞 +32 473 833 209 ✉️ vincent.vouga@gmail.com 🔗 LinkedIn 💻 GitHub

🇫🇷 French · 🇨🇭 Swiss | 🗣️ English (C2) · French (Native) · Spanish (B1)

---

23+ years delivering mission-critical systems in finance, defense, and EU institutions. Java architect with deep expertise in trading systems (FIX, OMS), DevOps/Cloud transformation, and AI integration. Proven track record leading teams and driving complex projects from design to production in high-stakes, regulated environments.

## TECHNICAL SKILLS

**BACKEND**
Java 8→21, Spring Boot, Microservices, REST, WebSockets

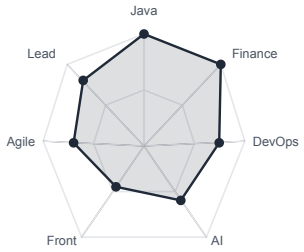
**DEVOPS**
Docker, Kubernetes, Terraform, AWS, Azure, GitHub Actions

**DATA**
Kafka, Spark, PostgreSQL, Oracle, MongoDB, Elasticsearch

**TOOLS**
Jenkins, Bamboo, Git, Jira, Maven, Nexus

**AI**
Generative AI, Agentic programming, Embeddings, Cursor

**METHODS**
Agile, SAFe, ITIL, Scrum (CSPO®)



## 🛰️ GOVERNMENT & DEFENSE (2022 – PRESENT) — 3+ YEARS

**Senior Software Engineer —** ILIAS Solutions (NATO Contractor)

May 2024 – Present
Brussels, Belgium

*Advanced predictive logistics software for defense environments*

- Backend development with Java 21 / Spring Boot across distributed microservices
- Multi-agent programming: autonomous planning & simulation flows
- Integration with Cursor (internal tooling for orchestrating advanced business and agent workflows)
- Local LLM integration in Java (embeddings + lightweight inference for on-premise constraints)
- Data pipelines and processing with Kafka / Spark
- Containerized runtime with Docker Swarm, Linux; PostgreSQL persistence
- Targeted contributions to React/TypeScript (non-core UI scope)

`Java 21` `Spring Boot` `Kafka` `Spark` `PostgreSQL` `Docker Swarm` `Linux` `React/TS`

---

**Application Engineer —** Council of the European Union

Apr 2022 – Apr 2024
Brussels, Belgium

*DevOps Middleware and Service Delivery Engineer (Independent Contractor)*

- Application deployment, updates, releases, patches, configuration across Linux, Windows, AWS, Azure, Docker, Kubernetes
- Level 2 support, infrastructure decision support for development teams
- Maintenance/upgrade of SAP VMs and servers

- Automation and operational tooling (Bash / PowerShell)
- Runtime/platform operations: Tomcat, IIS; collaboration with delivery teams

`Kubernetes` `Docker` `Terraform` `AWS` `Azure` `Bamboo` `Tomcat` `PowerShell`

## 📈 FINANCE & TRADING (2006 – 2021) — 15 YEARS

*via Smarfi-services / Open Group — IT Consultant Specializing in Finance*

### **Technology Leader —** Cream Consulting

Dec 2018 – Nov 2021
Brussels

- Led backend development and built a CRM with Java 8, integrating REST APIs, MongoDB, Elasticsearch
- Mentored a junior developer on frontend tasks (React) while maintaining backend delivery ownership
- Implemented Zabbix monitoring; managed IT infrastructure enabling secure remote work
- Agile/Scrum delivery with Jira; maintained CI/CD pipeline and production quality standards
- Managed AWS EC2 instances; defined KPIs; administered Jira/Confluence
- Hands-on development of a Chrome extension (JavaScript) and Node.js scripts

`Java 8` `SparkJava` `Spring Boot` `MongoDB` `Elasticsearch` `OAuth2` `React` `AWS EC2`

---

### **Lead Business Application Support —** Candriam

Dec 2016 – Nov 2018
Paris & Brussels

- Managed Level 2 & 3 business support for an asset manager overseeing €100B AUM
- Led a bilingual team (EN/FR) of five across Paris and Brussels
- Incident management, KPI tracking, and direct support to trading desks and fund managers
- Assisted and won a service bid for a hybrid finance/IT support team; trained juniors (SQL, log analysis, order flow)

`Sophis Fusion` `Charles River IMS` `GPMS` `Oracle` `Java 8`

---

### **FIX Connectivity Expert —** BNP Paribas Dealing Services

Sep 2015 – Aug 2016
Paris

- Oversaw FIX protocol certifications and coordinated with brokers, FIX networks, and platforms
- Managed a team of three in a bilingual setting; developed support procedures
- Conducted QA and regression testing on trading tools

`FIX 4.2/4.4` `Oracle SQL` `Unix` `QA/Regression`

---

### **Java Technical Lead —** Crédit Agricole CIB

Jul 2014 – Jun 2015
Paris

- Technical reference for Java within a service center developing cash management solutions
- Produced technical documentation and standards; facilitated interface between project owners and dev center
- Contributed to WebSphere migration strategy; participated in spec and technical review meetings

`Java` `WebSphere` `MQ` `Maven` `Jenkins` `Spring`

---

### **Forex Onboarding & Release Manager —** Société Générale CIB

Jul 2013 – Jun 2014
Paris

- Managed platforms for testing and client integration (onboarding) for SG CIB FIX APIs (Forex)
- Release and environment management; monitoring integration; KPI analysis for capacity planning

Java | Tibco | RMDS | Verifix

---

**Java Development Engineer —** BNP Paribas CIB

Jun 2010 – May 2013
Paris

- Participated in the development of a FIX order router for BNP Paribas brokerage services (listed derivatives OMS)
- Led cross-functional studies to ensure compatibility across processing chains
- Contributed to technical & business improvements; performed FIX certifications with external clients

Java 5 | FIX | QuickFIX | Oracle | Tibco | CORBA

---

**Java Software Engineer —** ProCapital

Jul 2008 – Jun 2010
Paris

- Developed features for ProCapital's OMS (SPTrade), deployed to clients for stock market access services
- GUI modifications, FIX message enhancements, and design of a regulatory-compliant data archiving project

Java | Oracle | Eclipse RCP | FIX | SonicMQ

---

**Java Engineer —** Société Générale CIB

Jul 2006 – Jun 2008
Paris

- Developed Java services for an equity-derivatives middle-office repository (Eliot)
- Integrated with surrounding systems using CORBA; maintained and evolved EnorM notification application

Java | CORBA | Sybase | Unix | Tibco

## 🚀 STARTUPS & ENGINEERING (2000 – 2006) — 6 YEARS

*via CapGemini then independent*

**Independent Developer —** RAINET

Apr 2005 – Jun 2006
Paris

- Created Shiva, a management software suite for cybercafés and multimedia spaces
- Achieved ~40% market share in France
- Client-server architecture, security, licensing, customizable modules

Delphi 5 | Interbase | Windows

---

**Software Engineer —** MOBIQUID (Hi-Media)

Jun 2004 – Mar 2005
Paris

- Developed online mobile services, including micropayment solutions (Mediapass/AlloPass)

C++ | ASP | SQL Server

---

**Java Software Engineer —** COBA Technology

Feb 2002 – May 2004
Paris

- Startup environment: built a real-time trading platform for short-term swaps with automatic matching
- Led discussions with trading specialists, designed a prototype, developed real-time order matching

Java 1.4 | Swing | Sockets | Oracle | Tomcat

---

**Software Engineer —** 9 Telecom (Cap Gemini)

Feb 2000 – Dec 2001
Paris

- Migration of fixed-line telephony services to the Internet; internal applications in C/C++ interfacing with BSCS

C | C++ | Windows | Unix

## PERSONAL PROJECT

### Full-Stack Game Application — Multi-Agent AI Development

Designed and orchestrated a multi-agent AI system to develop a large-scale application:

- Architected agent coordination: context summarization, task distribution, inter-agent communication protocols
- Backend: Java 21, Spring Boot 3.2, WebSocket/SSE — 950+ classes
- Performance: procedural map generation (2M+ tiles) in milliseconds using GraalVM native compilation
- Python SDK: simplified API access for offline/online modes
- Frontend: React 18, Three.js, TypeScript — 320+ files
- Mobile: React Native, Expo

Multi-Agent AI | Java 21 | GraalVM Native | Python SDK | React | Three.js

## EDUCATION & CERTIFICATIONS

| | |
|---|---|
| 2019 | Certified Scrum Product Owner® (CSPO®)<br>Scrum Alliance, Belgium |
| 1997–1999 | Bachelor's Degree — Mathematics & Computer Science<br>University of Rouen, France |
| 1996–1997 | DUT Software Engineering (Génie Logiciel)<br>Université Le Havre Normandie |
| 1995 | Scientific Baccalauréat (Mathematics)<br>Dieppe, France |

## INTERESTS

Philosophy, science, technology. Generative AI enthusiast. Secure coding practices.
